

Pacific Missile Range Facility

Kekaha, Kaua'i

Project Details:

- System Size: 120 kW
- System Type: Carport
- Inverters: String inverter

120kW Carport

Adon completed a 120kW photovoltaic carport system located at U.S. Navy Pacific Missile Range Facility (PMRF) on Kauai Island in 2010.

With approx. 600 panels and a string inverter, the system is expected to produce 203,232 kWh annually with a design build life cycle of 25 years.
